

PEDERICK SHEEP YARDS

Price List 2014

**Do-It-Yourself erection, instructions supplied with order
The yards are designed so the farmer can dig some post holes, drop
the pre-made fence panels in the holes, a bit of concrete and you
have a fence**

YARD PANELS

65 x 65 x 2.5mm gal posts & top cap

Top pipe 25mm gal

Two pressed rails per panel, each 292 x 2mm gal pressed sheets

Fixing – pressed rails tech screwed to posts

Top pipe – welded & joint sprayed with cold gal paint

Full yard panels have posts each end

Joining post-pressed rails only come ½ way on post

Some pressed rails join in centre of posts when extending a long run of fence

Post caps supplied – hammer cap on top of post

Cement – sand – blue metal not supplied

Supplied are numbered yard panels with layout plan to match numbered panels plus tech screws for pressed rail fixing to joining posts

Gates if required – hinges – double hinges – drafting races & gates, bugles, work races, solid gates if required

Loading ramps – single & double deck

Instruction sheet on erection

Prices on application

Note: Most panels are complete but joining panels require pressed rails to be tech screwed to posts and top pipe tech screwed to protruding joining sleeve

TOOLS REQUIRED TO ERECT SHEEP YARDS

Post hole digger, concrete, level, tape, tech screw gun, spanner

SHEEPYARD PANELS
